NOTES ON DANCE MUSIC CHOICES

Choosing Songs for Your Event

When picking songs for your event, think about what will work best for the mix of people you are inviting. What will appeal to the various age groups, backgrounds, etc? Choose a variety of music from various decades and genres, so everyone feels involved at some point during the event.

Start with genres/songs you definitely do want played... include these in the playlists you share with us. If we're going to be "winging it" at any point with generic background music, list genres you definitely DON'T want played.

Genres you definitely DO want played: _____

Genres you definitely DON'T want played: _____

You can also give percentages of styles or periods of music you want played: (i.e. 10% Disco; 25% Funk; 30% 1960's Music; 20% Latin/Salsa; 10% Rap; 15% Swing Era) if you wish

Specific songs that simply must be played but do not appear on the DJ's list... These songs should be decided by the client ahead of time so the DJ will have time to prepare.

Taking Requests: What percentage of this option would you like (0-100%)? ____%
(requests can be made by going to "ask.the.dj" in any web browser, on any device, and selecting Central Oregon DJs... we'll also have a QR code by the booth for people to scan)
